

ANTIFREEZE UNIVERSAL

READY-TO-USE NEXT-GENERATION COOLANT

DESCRIPTION:

Ready-to-use next-generation coolant based on monoethylene glycol and BASF (Germany) additives.

Designed for cooling systems of passenger cars and mixed-fleet vehicles in accordance with manufacturer recommendations. The new package of high-quality anti-corrosion additives ensures efficient operation of engine cooling systems, including those made from aluminum. The replacement interval is up to 250,000 km.

The colorless formula allows Antifreeze Universal to be used in all car makes and models, regardless of the year of manufacture. It is compatible with other ethylene glycol-based coolants.
